

digital wedding photography for pdf

Digital photography uses cameras containing arrays of electronic photodetectors to capture images focused by a lens, as opposed to an exposure on photographic film. The captured images are digitized and stored as a computer file ready for further digital processing, viewing, digital publishing or printing.. Until the advent of such technology, photographs were made by exposing light sensitive ...

Digital photography - Wikipedia

Wedding photography is the photography of activities relating to weddings. It encompasses photographs of the couple before marriage (for announcements, portrait displays, or thank you cards) as well as coverage of the wedding and reception (sometimes referred to as the wedding breakfast in non-US countries). It is a major branch of commercial photography, supporting many specialists.

Wedding photography - Wikipedia
