

delusions of gender the pdf

A delusion is a mistaken belief that is held with strong conviction even in the presence of superior evidence to the contrary. As a pathology, it is distinct from a belief based on false or incomplete information, confabulation, dogma, illusion, or some other misleading effects of perception. They have been found to occur in the context of many pathological states (both general physical and ...

Gender identity haunts every aspect of our lives, dictating the outcomes of our conversations, our workplaces, our relationships — even our bath products. Before most infants are named, they are assigned a sex based on the appearance of their external genitalia by a third party. These decisions are dolled out in a typically binary fashion, with no expectations for ambiguity.
