Day for night is a set of cinematic techniques used to simulate a night scene while filming in daylight. It is often employed when it is too difficult or expensive to actually shoot during nighttime. Because both film stocks and digital image sensors lack the sensitivity of the human eye in low light conditions, night scenes recorded in natural light, with or without moonlight, may be ...

Hi Everyone. A few months ago I created KinkyElephant.com, a social media "instance" on a network of Federated social media sites called Mastodon. My intention was to provide a space for fetish producers, models, amateur photographers and fans to meet and post which would be safe from shut-down by corporate social media operators like Tumblr and Twitter.
